Re: Application by Qwest Communications International, Inc. for Authorization to Provide In-Region, InterLATA Services in the state of Minnesota, WC Docket No. 03-90

In the Matter of AT&T Corp. Petition for Rulemaking to Reform Regulation of Incumbent Local Exchange Carrier Rates for Interstate Special Access Services, RM Docket No. 10593

Dear Ms. Dortch:

On Friday, June 20, 2003, Len Cali, Robert Quinn and I met with Commissioner Kevin Martin and his senior legal advisor, Daniel Gonzalez, regarding Qwest's application for interLATA authority in Minnesota. During this meeting we discussed Qwest's continued provisioning of UNE-Star resale services and explained that Qwest's "secret deals" misconduct violates core nondiscrimination requirements of the competitive checklist and precludes any finding that granting Qwest's application is in the public interest. In addition to unfiled agreements, we also discussed Qwest's failure to establish adequate processes and procedures for providing billing completion notices to CLECs.

Finally, we briefly discussed the study entitled "Macroeconomic Benefits from a Reduction in Special Access Prices" which was submitted in the above-referenced rulemaking proceeding by the Special Access Reform Coalition (SPARC) on June 12, 2003.

One electronic copy of this Notice is being submitted to the Secretary of the FCC in accordance with Section 1.1206 of the Commission's rules.

Sincerely,

A handwritten signature in black ink that reads "Amy L. Alvarez".
